

I got the INTERWEAVE scholarship at ITS, in Surabaya, Indonesia. This scholarship is an amazing opportunity to get to know another culture and to travel of course! Indonesia has so many places which are worth visiting...

You should not be afraid of the conditions of living in Indonesia – they are pretty good. I am attaching some pictures of the dormitory below.

When you are coming to Indonesia please do not forget to bring your mosquito net with you – they are not commonly used in here and pretty hard to find in a shop. And you will need one for sure!
