University Introduction

As one of the universities with the longest history and global reputation in China, Xi'an Jiaotong University is among the first universities to enter China's "211 Project" and "985 Project." After 120 years of relentless effort, Xi'an Jiaotong University is now a leading international comprehensive research university with scientific focus, composing of 10 branches of learning, namely: science, engineering, medicine, economics, management, literature, law, philosophy, education and art.

Xi'an Jiaotong University is located in Xi'an, the capital of 13 dynasties in Chinese history with the longest history and the greatest influence. Xi'an is also the starting point of the Silk Road, the cradle of Chinese civilization, as well as one of the World's Top Four Ancient Capitals. Today, being the hometown of current Chinese President Xi Jinping, Xi'an is not only the heart of western China, but also a preferred destination for international tourists, including over 200 of the world's top leaders such as Elizabeth II, George Bush, Vladimir Putin, etc.

As one of the first universities to receive Chinese Government Scholarship students, Xi'an Jiaotong University is now rapidly developing in international education. In 2013, XJTU was listed by the Ministry of Education of China as the Demonstration Base for International Education. Today, there are over 2,000 international students studying at XJTU from 117 countries including America, Pakistan, France, Italy, Turkey, Iran, Kazakhstan, India, Thailand, Korea, etc. of which 400 are sponsored by the Chinese Government Scholarship.

School Motto: Devotion to Learning, Determination to Achievement,
Dedication to Practice, Commitment to Task

- ※ Exempt from tuition fee;
- ※ Free on-campus dormitory accommodation;
- ※ Monthly living allowance:
Doctoral degree students: CNY 3,500 yuan/month
Master's degree students: CNY 3,000 yuan/month;
- ※ Medical Insurance

Application Time

November 1st, 2016—January 31st, 2017

Supporting Categories

Master's and PhD Students

List of Programs

(Chinese-medium programs can have 1 year Chinese language study)

Master's Programs English-Medium Programs (2years)

- School of Mechanical Engineering:** Mechanical Engineering
School of Materials Science and Engineering: Materials Science and Engineering (3 years)
School of Energy and Power Engineering: Power Engineering & Thermal Fluid Science, Nuclear Science and Technology
School of Electrical Engineering: Electrical Engineering
School of Electronic and Information Engineering: Electronic Science and Technology, Information and Communication Engineering, Control Science and Engineering, Compute Science and Technology
School of Aerospace: Mechanics, Aeronautical and Astronautic Science and Technology
School of Management: Management Science and Engineering
School of Humanities and Social Science: Theory of Literature (Chinese Cultural Study)
School of Law: Law
Jinhe Center for Economic Research: Applied Economics

Medical Programs in English-Medium

(3 years. For clinical medicine, students should have new HSK 4. Otherwise, they will have 1 year Chinese language study)

- | | | |
|--------------------------------------------|-----------------------------------------------------|-------------------------------------------|
| Biochemistry and Molecular Biology | Physiology | Neurobiology |
| Genetics | Medicinal Chemistry | Human Anatomy Histology and Embryology |
| Immunology | Pathogenic Organisms | Pathology and Pathophysiology |
| Forensic Medicine | Internal Medicine | Imaging and Nuclear Medicine |
| Microbial and Biochemical Pharmacy | Oncology | Psychiatry and Mental Health |
| Dermatology and Venereology | Pediatrics | Clinical Laboratory Diagnostics |
| Surgery | Ophthalmology | Master of Public Health |
| Emergency Medicine | Basic Science of Stomatology | Clinical Science of Stomatology |
| Epidemiology and Health Statistics | Oncology | Obstetrics and Gynecology |
| Anesthesiology | Otolaryngology | Geriatrics |
| Occupational and Environmental Health | Nursing | Maternal and Child Health Study |
| Master of Pharmacy | Cytobiology | Pharmaceutics |
| Pharmacognosy | Pharmaceutical Analysis | Pharmacology |
| Natural Pharmaceutical Chemistry | Nursing | The Discipline of Pharmacy Administration |
| General Medicine | Clinical Pathology | Nutrition and Food Hygiene |
| Rehabilitation Medicine & Physical Therapy | Clinical Discipline of Chinese and Western Medicine | |

Chinese Medium Programs

(3 years; Students should have new HSK 5. Otherwise, they will have 1 year Chinese language study)

- School of Mechanical Engineering:** Mechanical Engineering, Instrument Science and Technology
School of Materials Science and Engineering: Materials Science and Engineering
School of Energy and Power Engineering: Power Engineering & Thermal Fluid Science, Nuclear Science and Technology, Environment Science and Engineering
School of Electrical Engineering: Instrument Science and Technology, Electrical Engineering, Control Science and Engineering
School of Electronic and Information Engineering: Electronic Science and Technology, Information and Communication Engineering, Control Science and Engineering, Computer Science and Technology
School of Aerospace: Mechanics, Aeronautical and Astronautic Science and Technology
School of Mathematics and Statistics: Mathematics, Statistics
School of Management: Management Science and Engineering, Business Administration, Accounting (ACCA)
School of Science: Physics, Chemistry, Materials Science and Engineering, Chemical Engineering and Technology
School of Humanities and Social Sciences: Philosophy, Sociology, Theory of Literature, Journalism and Communication
School of Software Engineering: Software Engineering
School of Foreign Studies: Foreign Language and Literature
School of Life Science and Technology: Biology, Biomedical Engineering
School of Marxism: Theoretical Economics, Theory of Marxism
School of Chemical Engineering and Technology: Power Engineering & Thermal Fluid Science, Chemical Engineering and Technology
School of Public Policy and Administration: Education, Public Administration
School of Economics and Finance: Theoretical Economics, Applied Economics
Jinhe Center for Economic Research: Theoretical Economics, Applied Economics
School of Human Settlements and Civil Engineering: Architecture, Civil Engineering, Environment Science and Engineering
School of Law: Law
Frontier Institute of Science and Technology: Physics, Chemistry, Biology, Materials Science and Engineering, Chemical Engineering and Technology, Biomedical Engineering

Doctoral Programs (3-4Years)

Chinese & English-Medium Programs

- School of Mechanical Engineering:** Mechanical Engineering, Instrument Science and Technology
School of Materials Science and Engineering: Materials Science and Engineering
School of Energy and Power Engineering: Power Engineering & Thermal Fluid Science, Nuclear Science and Technology
School of Electrical Engineering: Instrument Science and Technology, Electrical Engineering
School of Electronic and Information Engineering: Electronic Science and Technology, Information and Communication Engineering, Control Science and Engineering, Computer Science and Technology
School of Aerospace: Mechanics, Aeronautical and Astronautic Science and Technology
School of Mathematics and Statistics: Mathematics, Statistics
School of Management: Management Science and Engineering, Business Administration
School of Science: Physics, Materials Science and Engineering
School of Humanities and Social Science: Philosophy
School of Software Engineering: Software Engineering
School of Life Science and Technology: Neurobiology, Cytobiology, Biochemistry and Molecular Biology, Biophysics, Biomedical Engineering
School of Marxism: Theory of Marxism
School of Chemical Engineering and Technology: Power Engineering & Thermal Fluid Science, Chemical Engineering
School of Public Policy and Administration: Public Administration
School of Economics and Finance: Applied Economics
Jinhe Center for Economic Research: Applied Economics
School of Law: Law and Governance
Frontier Institute of Science and Technology: Neurobiology, Biochemistry and Molecular Biology, Materials Science and Engineering, Chemical Engineering and Technology, Biomedical Engineering
