

# SCHOLARSHIP OPPORTUNITIES IN CHINA

## Beijing Postdoctoral Exchange Program

### 1. Background

Postdoctoral system was introduced to China in 1985, with purpose of attracting PhDs to work for a period in universities, institutes, and enterprises after graduation. Now there're 51 postdoctoral research centers (by universities), and 277 postdoctoral workstations (by enterprises), more than 75% of workstations are in the industries of new energy, artificial intelligence, intelligent manufacturing, electronic information and biopharmaceutical. Beijing Municipal Bureau of Human Resources and Social Security is responsible for implement of postdoctoral programs in the city. In 2017, Beijing Postdoctoral Exchange Programs was implemented, aiming at deepening PhDs cooperation and communication from Beijing and other cities in the world, promoting technical progress and economic growth together.

### 2. Qualifications of the Program

Graduated PhD, meeting the following conditions:

- Healthy, younger than 35 years old.
- High academic standing, excellent research and innovation ability, achieved outstanding research results as a PhD student.

## **Announcement Regarding the Release of the “Beijing 2018 Position List for Overseas High-level Talents ”**

High-level overseas talents are an important force in promoting the economic and social development of Beijing municipality. In recent years, due to the strategic position of the capital city as a globally influential technological innovation center and the requirements for building advanced economic structures, Beijing municipal government has implemented the "Beijing Overseas Talents Project(Haiju Project)" and actively introduced overseas high-level talents in various fields, creating a more welcoming atmosphere for overseas talents.

In order to further enhance the efficiency of talent recruitment, the “Beijing 2018 Position List for Overseas High-level Talents” was compiled. The catalogue summarizes information for 476 positions of various employment units in Beijing for overseas high-level talents, including the number of openings、 job requirements、 job description、 supporting policy and benefits and so forth. We strongly encourage overseas talents to contact with potential employers.
