

ENHANCING SUSTAINABLE COMMUNICATION, PROFESSIONAL COMPETENCES & AI February 2026-April 2026

This project is brought together under the umbrella of the ENHANCE UNIVERSITY Alliance and comes in the form of Blended Intensive Programme. It is coordinated by Valencia Polytechnic University/ Universitat Politècnica de València (UPV).

It is the first BIP in the sequence of the overall three BIPs, all of which are run by EU partner universities: University of Technology (WUT) Warsaw University of Technology and Technical University of Berlin (TUB). Two Ukrainian Technical Universities from Lviv (LNTU) and Kyiv (KPI) also participate in this project.

The project aims to introduce the basics of sustainability, AI, global challenges, and sustainable development goals via interuniversity interaction.

It will explore collaborations within technical universities and raise awareness about sustainable values in a modern and AI-supported society.

The participants of this project will be put into groups made up of the students from the participating universities.

This project is free of charge and the Blended Intensive Programme (Erasmus+) will support students' participation.

Main information:
