Office of International Students
Beijing Institute of Technology

WELCOME MESSAGE FROM THE DIRECTOR

Dear students and colleagues,

Thank you for your interests in Beijing Institute of Technology. As one of the top science and technology universities in the nation, we offer a high-level education for degree and language study.

With top-tier faculty and programs, friendly staff, and a pleasant living environment, I know that you will not be disappointed in choosing BIT as your university of choice. With many strong and prestigious science and technology programs to choose from, you will receive quality education and have great future job prospects.

Since BIT is located in the capital of China, you will be in the heart of the nation, surrounded by a city that has integrated modern conveniences together with the rich treasures of a culture with more than 5,000 years of history. Your choice of BIT will be rewarded with a wonderful university experience. We look forward to welcoming you here in Beijing!

Sincerely,

Wang Ying (Ms.)
Director

Undergraduate Programs in English

Electrical Engineering

Main Courses: Fundamental of electric circuits, Electronics, Computer programming language, Principles of microcomputer and interface, Electrical engineering technique, Electrical measurement technology, Power electronics, Electrical machinery and drives, Fundamentals of control theory, Control system of electrical machinery, Motion control system, Energy and power conversion technique, Intelligent building, Factory electricity supply, Electrical engineering network and communication technology.

Electronic Science and Technology

Main Courses: Fundamentals of circuits analysis, Fundamentals of analog circuits, Signals and systems, Fundamentals of control theory, Digital signal process, Random signal analysis, Electromagnetic field theory, information theory, Computer theory and

application, Communication circuits and system, Digital communication theory, Theoretical physics , Semiconductor physics, Hardware description language, Microelectronic process, Microelectronic device, Analog integrated circuits analysis and design, Digital integrated circuits analysis and design, Integrated circuits CAD, MEMS.

Computer Science and Technology

Main Courses: Essential courses, Discrete mathematics, Data structures and algorithms, Object-oriented programming computation theory and algorithms, Numerical analysis, Database principles and design, Principles of computer organization, Assembly language programming, Operating systems, Compiler principles and design, Fundamentals of software engineering, Computer architecture, Practice of operating system principles, Computer networks, Interface technique of microcomputer, Software engineering comprehensive practice ,Practice of networking technology.

Flight Vehicle Design and Engineering

Main Courses: Engineering mechanics, Fundamental of machine design, Automatic control theory, Electrical and electronic technology, The principle and application of the microcomputer, Aerodynamics, Flight dynamics, Structural mechanics, Introduction to flight vehicle systems, Flight vehicle system analysis and design, Principles of optimization design, Reliability engineering, An introduction to computational fluid dynamics, Flight vehicle guidance and control and Structure analysis and design of flight vehicle.

Mechanical Engineering

Main Courses: Computer courses, Engineering mechanics, Fundamentals of mechanical design course in group, Fundamentals of engineering materials, Electrical and electronic technology, Testing technology, Microcomputer principle and interface technology, CNC technology, Fluid mechanics, Control engineering, Mechanical manufacturing engineering, CAD/CAM principle, Mechanical manufacturing equipment design, etc.

Mechanical-electronic Engineering

Main Courses: Theoretical mechanics, Material mechanics, Fundamentals of machine design, Fundamentals of electric circuits, Fundamentals of analog electronics, Fundamentals of digital electronics, Introduction to mechanical electronic engineering, Principle & interface technology of microcontroller, Signal and system, Mechatronic control techniques, Mechatronic system analysis & design, Sensing and testing

Admission Book 2016

technology, Mechatronic system modeling and simulation, Progress on the discipline, Fundamental of robotics, Introduction to bionic machine, Mechatronic servo system, Digital signal processing, Computer control technology, Error theory and data processing, ASIC design and test technology, Basic of micro-electromechanical systems technology, and so on.

Master Programs in English

Aeronautics & Space Science and Technology

Advanced Computational Fluid Dynamic; Continuum Mechanics; Principles of Composite Material Mechanics; Structural Dynamics; Fundamentals of Aerospace Propulsion; Orbital Mechanics Guidance and control theory for flight vehicle; Automated Rendezvous and Docking of Spacecraft; Reactive Flow in Jet Propulsion

Chemistry

Inorganic Synthesis and Preparative Chemistry; Advanced Experiment of Organic Chemistry; Materials Science; Advanced Topics in Organic Chemistry; X-Ray Crystallography; Coordination Chemistry; Spectrometric Identification of Organic Compounds; Nano-science and technology

Chemical Engineering and Technology

Advanced Organic Chemistry; Metal-organic Chemistry; Advanced Experiment of Organic Chemistry; Modern Electrochemistry; Principles of Catalysis Spectrometric Identification of Organic Compounds; Advanced Topics in Organic Chemistry; Advanced Chemical Technology

Computer Science and Technology

Advanced Operating Systems; Computer Vision; Content Management and Technology of Digital Library; Wireless Networks and Mobile Computing; Web Mining Web;

Network information security; Machine Learning and Knowledge Discovery; Algorithms and Complexity; Theory of Computation

Control Science and Technology

Linear Algebra with Applications in Automatic Control; Linear Systems Theory; Optimum and Robust Control; Stochastic Process Theory and Applications; System Identification and Adaptive Control; Modern Sensor and Detection Technology; Systems engineering principle and applications;

Information and Communication Engineering

Statistical Signal Processing; Information Theory; Advanced Digital Communications; Fundamentals of Communication Networks; Signal detection and estimation theory; Microwave and Millimeter wave integrated circuits Design and Technology; Introduction to Radar Systems; Mobile Communications

Law

Public International Law; International Economic Law; Private International Law; WTO Law; International Intellectual Property Protection; Chinese Trademark Law and Unfair Competition; Chinese Patent Law; Chinese Copyright Law

Mechanical Engineering

Fundamentals of Modern Control Theory; Modern Measurement Technology; Elastic-Plastic Mechanics; Mechanical Vibration; Advanced Engineering Thermodynamics and Heat Transfer; Principle of Finite Element Method; Principles of CAD/CAM/CAE; Structural Design with Optimization Method

Electronics Science and Technology

Statistical Signal Processing; Information Theory; Advanced Digital Communications; Fundamentals of Communication Networks; Signal detection and estimation theory; Microwave and Millimeter wave integrated circuits Design and Technology; Introduction to Radar Systems; Mobile Communications

Software Engineering

Advanced Software Engineering; Software Architecture; Object-oriented methodologies and technology; Business Information Management and ERP; Software Project Management; Software Service Engineering Advanced Database Technology; Advanced Computer Networks

What Scholarship do we have?

1. Chinese Government Scholarship (CSC)

● What does the scholarship cover?

Application fee, tuition, accommodation, Comprehensive Medical Insurance

● Stipend: Undergraduate students: CNY 2,500 per month;

Master's students / general scholars: CNY 3,000 per month;

Doctoral students / senior scholars: CNY 3,500 per month

● Who can apply?

Applicants are non-Chinese citizens and in good health;

Applicants are not registered students in Chinese universities at the time of application;

Applicants are not applying for non-degree programs.

Applicants who have graduated from Chinese universities for more than one year;

Applicants for Master programs should be under the age of 35 and hold a bachelor's degree;

Applicants for PhD programs should be under the age of 40 and hold a master's degree

● How to Apply?

Register at <http://laihua.csc.edu.cn>, BIT's Agency No. is 10007.

Send application materials to BIT by master_phd@bit.edu.cn (check <http://isc.bit.edu> for details)

● Application deadline: April 15th / every year

● Contact: Ms. ZHENG Ye (See contact information)

2. Central Europe Special Scholarship

● What does the scholarship cover?

Tuition and Accommodation

● Who can apply?

Countries: Albania, Austria, Bulgaria, Bosnia and Herzegovina, Croatia, Czech, Estonia, Germany, Hungary, Latvia, Liechtenstein, Lithuania, Macedonia, Montenegro, Poland, Romania, Serbia, Slovakia, Slovenia, Switzerland.

More than 6 months study period

The student's home university must recognize the credits that the students earned in the Chinese universities

● How to Apply?

Register at <http://apply.isc.bit.edu.cn>

- **Application deadline:** Spring semester: Oct.15th, 2015- Jan.15th,2016

Fall semester: Mar 15th, 2016- June 15th, 2016

- **Contact:** Ms. ZONG Xin (See contact information)

3. Sino-US Cultural Communication Special Scholarship

- **What does the scholarship cover?**

Tuition and Accommodation

- **Who can apply?**

US citizens in good health

More than 6 months study period

The student's home university must recognize the credits that the students earned in the Chinese universities
