

About NUAA

A Prestige in China's Education Sector

Nanjing University of Aeronautics and Astronautics (NUAA) is one of China's premier learning and research institutions. NUAA has developed into a very comprehensive, research-based university that excels in many aspects of engineering (particularly in Aeronautics, Astronautics, and Mechanical Engineering), science, economics and management, arts and literature, and many others.

Nanjing City

Modern and Epic, Densely Mixed

- The 600-year-old city wall of Nanjing is the world's longest city wall.
- With respect to the number of universities, Nanjing ranks third in China, just after Beijing and Shanghai.
- Shopping malls, museums and mausoleums, parks, traditional snack shops, western restaurant & bars, university complexes, etc.
- 1 hour away from Shanghai on the high speed train.
- Nanjing is one of the biggest and safest city to live in China.

NUAA SUMMER PROGRAM 2017

LANGUAGE & TRAINING
PROGRAM (4 WEEKS)

Make this your
BEST SUMMER EVER
Meet students from all over the world

NUAA Summer Program 2017

Broaden your perspective in our Language + Training summer program

Enjoy a fantastic summer studying Language, Culture, and Engineering Training Program.

This summer, Nanjing University of Aeronautics and Astronautics (NUAA) will open for you to study the Chinese language, to learn about Chinese culture and engineering training. You can earn credits toward your degree, experience the exquisite Chinese culture and creativity in training.

PROGRAM OVERVIEW

中文 NUAA Chinese Language and Culture Studies

Spend your summer studying and living in one of China's most vibrant and exciting cities. Combine language learning with cultural studies and travel to open your mind to a new dimension.

Course Features

- Nanjing city tour and weekend trips to nearby city.
- Basic Chinese language study.

Course Contents

Language, History, Chinese Martial Arts, Calligraphy, Cuisine, Folk Music, etc.

NUAA Engineering Training

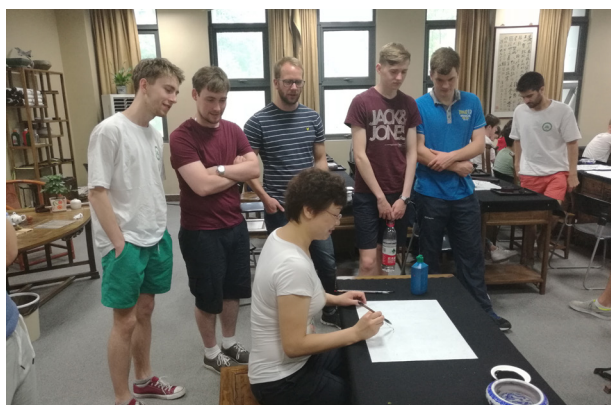

Enhance your engineering abilities and creativeness with NUAA's Engineering Training Program.

Digitized Design and Manufacturing Training

This training is a comprehensive and practical course, which is a project-driven teaching model orientated on students' research.

Course Contents

CAD/CAM, Distributed Numerical Control (DNC), CNC machining, Rapid prototyping (RP), Electrical Discharge Machining (EDM), Laser Beam Machining (LBM) etc.

CONNECT

Connect with our top students from NUAA and build life-long friendships

LEAD

Lead activities and discussions and assist with the participants' language and academic skills development

TRAVEL

Travel to China in and after the program to unite with the participants and experience cultures first-hand

Credits will be given for each of the Courses attended

Program	Time	Duration	Fees
Language and Culture Studies (2 credits)	2 weeks	June 19 - June 30	No Fee for Cooperative Universities
Engineering Training (2 credits)	2 weeks	July 3 - July 14	

Accommodation

Approx. **50 RMB**/ Day/ person (students dormitory)

* Module costs include tuition, travel to historical and cultural sites and innovation expenses. Students are responsible for their own meals and personal expenses.

* The exchange rate is approximately **USD \$1 = ¥6.9 RMB** and **EUR €1 = ¥ 7.2 RMB**.

* Payment must be made in full in form of cash upon arrival.
